User-Side Testing Checklist

Comprehensive quality assurance document for client-side testing of all user-facing features and workflows

VERSION	DATE	CLASSIFICATION	TEST CASES
1.0	September 2026	Confidential	120+

Table of Contents

Complete testing coverage across all user-facing features

01	Registration	11 cases
02	Onboarding (5-Step Wizard)	21 cases
03	Post-Registration Status Pages	6 cases
04	Login	8 cases
05	Forgot Password	7 cases
06	Dashboard	10 cases
07	Matches Page	16 cases
08	Interests Page	12 cases
09	Messages / Chat	14 cases
10	Profile Page	16 cases
11	Edit Profile	9 cases
12	Shortlists Page	4 cases
13	Notifications	8 cases
14	Online Presence	4 cases
15	Account Management	10 cases
16	Public Pages	6 cases
17	Responsive Design & Cross-Browser	6 cases
18	Edge Cases & Error Handling	8 cases

01 Registration

11 TEST CASES

Verify all registration paths including email/password, Google OAuth, OTP verification, CAPTCHA, and validation rules.

#	TEST CASE	EXPECTED RESULT	PASS
1.1	Open /register page	Registration form loads with branding, scripture quote, trust indicators	☐
1.2	Register with Email/Password	OTP sent to email, OTP modal appears with 6-digit input fields	☐
1.3	Enter correct OTP code	Verification succeeds, user navigated to onboarding wizard	☐
1.4	Enter incorrect OTP code	Error message displayed, user can retry with correct code	☐
1.5	Click "Resend OTP" after 120s timer	New OTP sent to email, cooldown timer resets to 120 seconds	☐
1.6	Register with Google OAuth	Google popup appears, account created, redirected to onboarding	☐
1.7	Try registering with existing email	Error message: "Email already in use"	☐
1.8	Submit without agreeing to Terms	Registration blocked, terms checkbox required	☐
1.9	Observe password strength indicator	Shows Weak / Fair / Strong based on length, numbers, symbols	☐
1.10	Try weak password (no number/symbol)	Registration blocked until strong password provided	☐
1.11	Complete Turnstile CAPTCHA	CAPTCHA verification required before registration proceeds	☐

02 Onboarding (5-Step Wizard)

21 TEST CASES

Test the complete 5-step onboarding wizard: Basic Info, Personal/Career/Lifestyle, Family Background, Partner Preferences, and Photos + Terms.

STEP 1: BASIC INFO

#	TEST CASE	EXPECTED RESULT	PASS
2.1	Select "Profile for" (Self, Son, Daughter, etc.)	Selection saved and reflected in profile data	☐
2.2	Select Profile Type (Bride / Groom)	Selection saved, affects match suggestions	☐
2.3	Fill First Name and Last Name	Both required fields validated, middle name optional	☐
2.4	Enter Date of Birth (under 18 years)	Error: user must be at least 18 years old	☐
2.5	Enter mobile number	Validates 7-15 digits, numeric only	☐
2.6	Select Denomination	Dropdown with 12+ options (Catholic, Protestant, Orthodox, etc.)	☐
2.7	Fill Church Name, City, Area	Fields accept input, church synced on submission	☐
2.8	Enter Pastor Number (not 10 digits)	Error: must be exactly 10 digits	☐
2.9	Complete email OTP verification	OTP modal, code sent and verified before proceeding	☐
2.10	Complete Turnstile CAPTCHA	Required on this step before proceeding	☐

STEP 2: PERSONAL, CAREER & LIFESTYLE

#	TEST CASE	EXPECTED RESULT	PASS
2.11	Fill marital status, height, weight, body type	All fields accept input and save correctly	☐
2.12	Fill education, profession, income	Fields accept input, dropdowns function	☐
2.13	Fill dietary, drinking, smoking habits	Dropdowns work, selections saved	☐
2.14	Add hobbies	Text input accepts hobby entries	☐
2.15	Write "About Me" bio	Textarea accepts input, character limit enforced	☐

STEPS 3-5: FAMILY, PREFERENCES & PHOTOS

#	TEST CASE	EXPECTED RESULT	PASS
2.16	Fill father's and mother's name & occupation	Family background fields accept input	☐
2.17	Set partner age/height range preferences	Range inputs function correctly	☐
2.18	Select preferred denominations (multi-select)	Multi-select dropdown works	☐
2.19	Upload profile photo (JPEG/PNG/WEBP, <10MB)	Photo uploads successfully, moderation queue created	☐
2.20	Upload invalid format (GIF, BMP) or >10MB file	Error: invalid format or file too large	☐
2.21	Upload up to 3 gallery photos	All 3 upload successfully	☐
2.22	Try uploading 4th gallery photo	Error: maximum 3 gallery photos allowed	☐
2.23	Submit onboarding without Terms agreement	Submission blocked, checkbox required	☐
2.24	Submit complete onboarding form	Success screen, profile placed in pending approval status	☐
2.25	Refresh page mid-onboarding	Draft data restored from localStorage auto-save	☐
2.26	Close browser and return to onboarding	Draft data still available, wizard resumes	☐

03 Post-Registration Status Pages

6 TEST CASES

Verify that users are correctly redirected to status-specific pages based on their account state (pending, suspended, banned, rejected).

#	TEST CASE	EXPECTED RESULT	PASS
3.1	Login after onboarding (pending approval)	Redirected to Waiting Room page with review info	☐
3.2	Verify Waiting Room page content	"Application Under Review" message, 24-48h timeline mentioned	☐
3.3	Click "Sign Out" on Waiting Room	Signs out, redirects to login page	☐
3.4	Login as suspended user	Redirected to Suspended page with support contact	☐
3.5	Login as banned user	Redirected to Banned ("Account Closed") page	☐
3.6	Login as rejected user	Redirected to Rejected ("Application Not Approved") page	☐

04 Login

8 TEST CASES

Test all login paths including email/password, Google OAuth, MFA, session persistence, and admin access restrictions.

#	TEST CASE	EXPECTED RESULT	PASS
4.1	Login with Email/Password (approved user)	Navigates to Dashboard or Profile based on account status	☐
4.2	Login with Google OAuth	Google popup, successful authentication, correct redirect	☐
4.3	Toggle "Keep me signed in" ON, close browser	Session persists after browser restart	☐
4.4	Toggle "Keep me signed in" OFF, close browser	Session ends when browser closes	☐
4.5	Enter wrong password	Error message displayed, login fails	☐
4.6	Complete Turnstile CAPTCHA	Required before login attempt is processed	☐
4.7	Try login as admin from user login page	Error: "Administrative accounts are restricted"	☐
4.8	MFA prompt for users with TOTP enabled	6-digit TOTP code input screen appears	☐

05 Forgot Password

7 TEST CASES

Verify the complete password reset flow including OTP request, verification, and new password setting.

#	TEST CASE	EXPECTED RESULT	PASS
5.1	Click "Forgot password?" on login page	Forgot password modal opens with email input	☐
5.2	Enter registered email and request OTP	OTP sent (or generic message to prevent user enumeration)	☐
5.3	Enter correct OTP + valid new password	Password reset successful, success message shown	☐
5.4	Enter incorrect OTP code	Error message, can retry	☐
5.5	Try password shorter than 6 characters	Error: password must be at least 6 characters	☐
5.6	Enter mismatched password confirmation	Error: passwords must match	☐
5.7	Login with newly reset password	Successful login with new credentials	☐

06 Dashboard

10 TEST CASES

Verify dashboard content for both pending and approved users, including stats, match suggestions, and profile views.

#	TEST CASE	EXPECTED RESULT	PASS
6.1	View dashboard (pending approval status)	"Awaiting Verification" card shown with review info	☐
6.2	View dashboard (approved status)	Stats grid: Profile Views, Interests Received, Active Chats	☐
6.3	Click "Profile Views" tile	Modal opens showing list of recent profile visitors	☐
6.4	Click "View Profile" on a visitor in the modal	Navigates to that visitor's full profile	☐
6.5	Click "Interests Received" tile	Navigates to /interests page	☐
6.6	Click "Active Chats" tile	Navigates to /messages page	☐
6.7	View Daily Match Suggestions	Top 10 matched profiles with match %, photos, details	☐
6.8	Click "View Profile" on a match card	Navigates to that match's full profile page	☐
6.9	Verify online indicator on match cards	Green pulsing dot shown for online users	☐
6.10	Verify photo blur on non-connected matches	Photos blurred with CSS blur + avatar placeholder	☐

07 Matches Page

16 TEST CASES

Test profile browsing, search (name and Profile ID), all filter options, bookmarking, interest sending, and rate limiting.

#	TEST CASE	EXPECTED RESULT	PASS
7.1	Browse match profiles	Cards show photo, name, age, location, denomination, match %	☐
7.2	Search by user name	Results filter in real-time as user types	☐
7.3	Search by Profile ID (6+ characters)	Exact match found and displayed	☐
7.4	Search by Profile ID (<6 characters)	Search disabled until minimum 6 characters entered	☐
7.5	Filter by Age Range (min/max)	Results filtered to specified age range	☐
7.6	Filter by Denomination	Only profiles matching denomination shown	☐
7.7	Filter by Education level	Results filtered by education criteria	☐
7.8	Filter by Location (city/country)	Results filtered by location match	☐
7.9	Filter by "Verified Only" toggle	Only email-verified profiles displayed	☐
7.10	Filter by "Recently Active" toggle	Only users active within last 24 hours shown	☐
7.11	Combine multiple filters simultaneously	All active filters apply together correctly	☐
7.12	Clear all active filters	All profiles shown again, filters reset	☐
7.13	Click Bookmark button on a profile card	Profile added to shortlist, bookmark icon toggles	☐
7.14	Click "Send Interest" on a profile card	Interest sent, button changes to "Interest Sent" state	☐
7.15	Click "Message" on a connected match	Navigates to chat conversation with that user	☐
7.16	Send 5+ interests within 24 hours	Rate limit alert shown, cannot send more interests	☐

08 Interests Page

12 TEST CASES

Test all four tabs: Received, Sent, Declined, and Accepted. Verify accept/decline/withdraw/delete workflows.

RECEIVED TAB			
#	TEST CASE	EXPECTED RESULT	PASS
8.1	View received interests	Cards show sender's photo (blurred), name, age, location	☐
8.2	Click "Accept" on a received interest	Interest accepted, moves to Accepted tab, email sent to sender	☐
8.3	Click "Decline" on a received interest	Interest removed from Received tab	☐
8.4	Verify sender cannot see who declined them	Declined interest hidden from sender's Sent tab	☐
SENT, DECLINED & ACCEPTED TABS			
#	TEST CASE	EXPECTED RESULT	PASS
8.5	View sent interests	Cards show receiver's name, "Waiting for response..." status	☐
8.6	Click "Withdraw" on a sent interest	Interest deleted via transaction, removed from Sent tab	☐
8.7	View declined interests	Cards show the interests you previously declined	☐
8.8	Click "Delete Permanently" on declined interest	Interest completely removed from Declined tab	☐
8.9	View accepted connections	Cards show connected user's photo, name, "accepted" badge	☐
8.10	Click "Send Message" on accepted connection	Navigates to chat with that connected user	☐
8.11	Click "Withdraw & Decline" on accepted connection	Confirmation modal shown before action	☐
8.12	Confirm "Withdraw & Decline" in modal	Connection removed, user moved to Declined tab	☐

09 Messages / Chat

14 TEST CASES

Test real-time messaging, typing indicators, read receipts, notifications, and block/unblock from chat.

#	TEST CASE	EXPECTED RESULT	PASS
9.1	View conversations list	Shows all accepted connections with photos, names, online status	☐
9.2	Verify online indicator in chat list	Green pulsing dot for online users	☐
9.3	Click a conversation to open chat	Chat opens with full message history	☐
9.4	Send a text message	Message appears in chat, delivered to other user in real-time	☐
9.5	Receive a message (other user sends)	Message appears instantly without page refresh	☐
9.6	Verify typing indicator	Shows "{Name} is typing..." when other user types, 2s timeout	☐
9.7	Verify read receipts	Unread messages marked as read when chat is opened	☐
9.8	Verify unread message badge on nav	Red badge with unread count on Messages nav item	☐
9.9	Click "View Profile" in chat overflow menu	Navigates to that user's profile page	☐
9.10	Click "Block User" in chat overflow menu	User blocked, chat input disabled, navigated back to messages list	☐
9.11	Verify blocked user cannot send messages	No messages received from blocked user	☐
9.12	Unblock a previously blocked user	Chat restored, messaging re-enabled	☐
9.13	Receive notification toast for new message	Toast shown with sender name and message preview	☐
9.14	Verify audio alert on new message	Sound plays when new message arrives	☐

10 Profile Page

16 TEST CASES

Test viewing own profile and other profiles, photo privacy, view tracking, gallery, and photo moderation states.

OWN PROFILE			
#	TEST CASE	EXPECTED RESULT	PASS
10.1	View own profile	Shows all details, Profile ID, stats tiles (8 tiles)	☐
10.2	Click Quick Stats tiles	Each tile navigates to relevant page (Views, Interests, etc.)	☐
10.3	Click "Edit Profile" button	EditProfileModal opens with tabbed sections	☐
10.4	Click profile photo	Lightbox gallery opens with photo carousel	☐
10.5	Upload/change profile photo	Photo upload modal works, new photo sent to moderation	☐
10.6	View gallery photos	All approved gallery photos displayed	☐
OTHER USER'S PROFILE			
#	TEST CASE	EXPECTED RESULT	PASS
10.7	View another user's profile	Shows their details, photo (blurred if not connected)	☐
10.8	Verify profile view is tracked	Your view appears in their "Profile Views" list	☐
10.9	Click "Shortlist" button	Profile added to your shortlist	☐
10.10	Click "Send Interest" button	Interest sent to that user	☐
10.11	Click "Block User" button	User blocked, cannot see your profile	☐
10.12	Click "Send Message" (if connected)	Navigates to chat conversation	☐
PHOTO PRIVACY			
#	TEST CASE	EXPECTED RESULT	PASS
10.13	Verify photos blurred for non-connected users	CSS blur applied, DiceBear avatar shown as placeholder	☐
10.14	Verify photos visible after accepting connection	Blur removed, real photo displayed	☐
10.15	Verify pending photo shows overlay	"Pending Review" overlay displayed on photo	☐
10.16	Verify rejected photo shows reason	Rejection reason overlay displayed on photo	☐

11

Edit Profile

9 TEST CASES

Test all editable sections in the EditProfileModal including bio, lifestyle, education, location, faith, and preferences.

#	TEST CASE	EXPECTED RESULT	PASS
11.1	Edit "About Me" bio text	Max 1200 characters enforced, character counter shown	☐
11.2	Try adding email address in bio	Blocked or warned (security measure to prevent data leaks)	☐
11.3	Edit Basic Info (height, weight, body type, etc.)	Fields accept input, values save correctly	☐
11.4	Edit Education & Career fields	Fields accept input, dropdowns function	☐
11.5	Edit Location fields (country, city)	Country/City dropdowns work, location updates	☐
11.6	Edit Faith & Church details	Church fields accept input, synced to churches collection	☐
11.7	Edit Partner Preferences	All preference fields function correctly	☐
11.8	Save all changes	Toast success notification, changes reflected in profile	☐
11.9	Cancel without saving	Changes discarded, original values preserved	☐

12 Shortlists Page

4 TEST CASES

Test the bookmarking/shortlisting feature including viewing, navigating, and removing shortlisted profiles.

#	TEST CASE	EXPECTED RESULT	PASS
12.1	View shortlisted profiles	Cards show photo (blurred), name, age, location, match %	☐
12.2	Click "View Profile" on a shortlisted card	Navigates to that user's full profile page	☐
12.3	Click bookmark icon to remove from shortlist	Profile removed from shortlist page	☐
12.4	View empty shortlists state (no bookmarks)	Appropriate empty state message displayed	☐

13 Notifications

8 TEST CASES

Test in-app toast notifications, FCM push notifications, badge counts, and audio alerts.

#	TEST CASE	EXPECTED RESULT	PASS
13.1	Receive interest notification	In-app toast: "New Connection Request!" with sender info	☐
13.2	Receive connection accepted notification	In-app toast: "Connection Accepted!" with sender info	☐
13.3	Receive message notification (while offline)	Toast with sender name and message preview	☐
13.4	Receive message notification (viewing that chat)	Toast suppressed, no duplicate notification	☐
13.5	FCM push notification (mobile/browser)	Push notification appears on device	☐
13.6	Verify interest badge count on nav	Red badge shows unread interest notification count	☐
13.7	Verify message badge count on nav	Red badge shows unread message count	☐
13.8	Verify audio alert on new notification	Sound plays when notification arrives	☐

14

Online Presence

4 TEST CASES

Verify real-time online/offline status indicators across match cards, profile pages, and chat interfaces.

#	TEST CASE	EXPECTED RESULT	PASS
14.1	Online indicator on match cards	Green pulsing dot shown for online users	☐
14.2	Online indicator on profile page	Green dot + "Online" text displayed	☐
14.3	Online indicator in chat header	Shows "Active Now" with green dot	☐
14.4	User goes offline (closes browser/app)	Green dot disappears, status updates to offline	☐

15 Account Management

10 TEST CASES

Test session timeout, logout, account deletion with grace period, blocking/unblocking users, and the blocked users list.

#	TEST CASE	EXPECTED RESULT	PASS
15.1	Idle for 15 minutes (session timeout)	Auto-logout with alert message	☐
15.2	Click Logout button	Signs out, redirects to login page	☐
15.3	Request account deletion from profile	OTP sent to email for verification	☐
15.4	Confirm deletion with correct OTP	7-day grace period starts, deletion scheduled	☐
15.5	Login during 7-day grace period	AccountDeletionPrompt shown with reactivation option	☐
15.6	Click "Reactivate My Account"	Account restored, full platform access returned	☐
15.7	Do not reactivate within 7 days	Account permanently deleted, data purged	☐
15.8	Block a user from their profile page	User blocked, cannot see your profile or message you	☐
15.9	View blocked users list (Privacy tab)	List shows all blocked users with photos and unblock button	☐
15.10	Unblock a user from the blocked list	Connection restored, user can see your profile again	☐

16

Public Pages

6 TEST CASES

Verify all public-facing pages load correctly: Landing, FAQ, Terms, About, and Contact.

#	TEST CASE	EXPECTED RESULT	PASS
16.1	Landing page loads (/)	Hero section, how-it-works, trust cards, testimonials, FAQ	☐
16.2	FAQ page loads (/faq)	Expandable Q&A sections, search filter works	☐
16.3	Terms page loads (/terms)	Terms and conditions content displayed	☐
16.4	About page loads (/about)	Platform information and mission displayed	☐
16.5	Contact page loads (/contact)	Contact form/information displayed and functional	☐
16.6	Navigate from landing to register/login	All navigation links work correctly	☐

17

Responsive Design & Cross-Browser

6 TEST CASES

Verify the platform works correctly across different screen sizes (mobile, tablet, desktop) and major browsers.

#	TEST CASE	EXPECTED RESULT	PASS
17.1	Mobile view (iPhone / Android)	All pages responsive, hamburger menu works, no layout issues	☐
17.2	Tablet view (iPad)	Layout adapts correctly, touch targets appropriate	☐
17.3	Desktop view (Chrome)	Full layout with sidebar navigation, all features work	☐
17.4	Firefox browser	All features work, no rendering issues	☐
17.5	Safari browser	All features work, no rendering issues	☐
17.6	Edge browser	All features work, no rendering issues	☐

18 Edge Cases & Error Handling

8 TEST CASES

Test unexpected scenarios, network issues, form validation edge cases, and error recovery.

#	TEST CASE	EXPECTED RESULT	PASS
18.1	Network disconnection during action	Graceful error handling, no crash or data loss	☐
18.2	Refresh page mid-action	State preserved or recovered gracefully	☐
18.3	Submit form with empty required fields	Validation errors shown for each empty required field	☐
18.4	Upload corrupted image file	Error message shown, application does not crash	☐
18.5	Open multiple browser tabs simultaneously	State syncs across tabs, no conflicts	☐
18.6	Use browser back/forward navigation	Pages load correctly, state maintained	☐
18.7	Deep link to protected route (unauthenticated)	Redirects to login page	☐
18.8	Try accessing admin routes as regular user	Redirected to admin login or access denied	☐

Testing Notes & Rate Limits

2

MIN. TEST ACCOUNTS

5

INTERESTS / 24H

7

DAY DELETION GRACE

15

MIN. SESSION TIMEOUT

TESTING SETUP

- Create at least 2 test accounts (1 male/groom, 1 female/bride)
- Test the full flow: Register → Onboarding → Pending → Approved → Match → Interest → Connect → Message
- Use incognito/private browsing for clean session tests
- Keep browser DevTools open to monitor network and console errors

RATE LIMITS

- **Interest sending:** Max 5 per user per 24 hours (enforced server-side)
- **OTP verification:** Attempt-limited, time-limited, hashed storage
- **Gallery photos:** Max 3 gallery + 1 profile = 4 total
- **Photo file size:** Max 10MB per image
- **Photo formats:** JPEG, PNG, WEBP only
- **Password (registration):** Min 8 chars, must include number + symbol
- **Password (reset):** Min 6 characters
- **Bio length:** Max 1200 characters
- **Session timeout:** 15 min (user) / 10 min (admin)
- **Profile ID search:** Min 6 characters
- **Account deletion:** 7-day grace period
- **OTP resend:** 120-second cooldown

KEY WORKFLOWS TO TEST

- Complete registration-to-connection flow end-to-end
- Photo upload → moderation → approval/rejection cycle
- Interest rate limit enforcement (send 5 in 24h)
- Block/unblock user between two accounts
- Account deletion and 7-day reactivation
- Password reset flow with OTP
- Multiple browser tabs state synchronization

BUG REPORTING FORMAT

- **Test Case #:** Reference the number from this checklist
- **Steps to Reproduce:** Exact steps taken
- **Expected:** What should have happened
- **Actual:** What actually happened
- **Severity:** Critical / Major / Minor / Cosmetic
- **Screenshot:** Attach if possible
- **Browser/Device:** Include browser version and device type
